Field Day

HS ACADEMIES

International

Studies

International Studies is meant to be an open window to the world. Many students don't have any knowledge of other countries, their lives, customs, traditions, animals, food, politics and religion.

We "travel" to these countries and learn about the mentioned aspects. Last year we studied every country in South, Central, and North America. This year we are studying Asia.

I was born in Argentina and I am aware of how different each country is and how fascinating each one is!

Things that are normal somewhere else can be seen as crazy here! It gives the students awareness of the world and what happens outside of our country.

We sometimes have people coming and talking about their experience when they lived or traveled out of USA.

We bring food to class, because food is part of the culture, and we have field trips that are related to what we are studying. Our next field trip will be the Jesus Film Tour and then a tour at Wycliffe.

Natalie Rogers: The Life of a Basketball Student Athlete

The last three years of basketball have been more than fun for Senior Natalie Rogers. She decided to join the team after being repeatedly asked by the coach to join. Rogers favorite part of basketball is that her team is like one big family. She also loves showing off her hard work and progress throughout the season at basketball games.

Although she loves basketball games, she loves the no pressure environment of the practices. She especially loves the fun times the team has spent bonding together during practices and games. Rogers said that her favorite basketball memory is, “One time at a game, I went to high five Grace after she scored and accidentally tripped her.”

Rogers has attended WHCS for 13 years. She has also played other sports such as volleyball and archery but says basketball is her favorite. Although she can see herself playing basketball in the future, she would like to focus on her schooling. Rogers plans to attend Polk State after she graduates to get a degree in Nursing. Rogers said that it is fun to balance school, work, and her sports schedules, but it gets difficult at times.

Rogers favorite part about WHCS is the fact that the teachers and staff really care about you, not just as a student but as a person. We are all so proud of the amazing woman that Rogers has become and we all cannot wait to see where God takes her next.
